NMGI RECEIVES VARVISION BUSINESS ACHIEVEMENT AWARD

*The 2003 Best of VARVision Award recognizes the DoubleCheck Email Manager
for product innovation and channel achievement.*

HUTCHINSON, KS. (April 7, 2003) – Network Management Group, Inc. (NMGI) was awarded the 2003 Best of VARVision “New Business Achievement Award” for introducing the DoubleCheck Email Manager with McAfee Anti-Virus, a leading product to significantly reduce spam, stop viruses and monitor email traffic. VARVision is produced by Vision Events, a Gartner, Inc. company. The DoubleCheck Email Manager incorporates leading technologies and customizable features that allow organizations and end users to save money, improve productivity and manage email use. With spam detection accuracy of over 98%, DoubleCheck typically produces a return on investment in six months or less.

The VARVision Advisory Committee selects the Best of VARVision Awards from a national pool of nominated candidates. Awards were presented March 18 in Orlando, Florida, following the conclusion of Spring VARVision 2003, a highly focused business event that bring resellers and end users together with leading and emerging vendors in private boardroom appointments to form strategic partnerships and secure new business in the technology sector.

“Everyone at NMGI is excited over this recognition for our DoubleCheck products and services,” said Steve Harper, President of NMGI. “It is great to receive the 2003 VARVision Award to validate our effort, success and future plans. It is especially gratifying to know that our

value is measured by the success of our partners, customers and the thousands of DoubleCheck end users whom we help make more productive every day.”

The VARVision award application required a business plan overview, customer success stories, reseller program specifics, product development roadmap and channel marketing materials. Scott Scrogin, Vice President of Professional Services, stated, “This is an award for overall excellence in our ability and commitment to bring successful email, spam and anti-virus solutions to market in partnership with other resellers. DoubleCheck is successful because we make it easy for resellers and customers to experience the significant value of our product.”
