## **NMGI Announces DoubleCheck Integration with ConnectWise**

### ***New Feature Improves Reporting and Managed Services Offering***

**Hutchinson, Kansas – November 1, 2005** – ConnectWise, a leading provider of IT service management software, is releasing a Managed Service platform that will enable NMGI's DoubleCheck partners to integrate key DoubleCheck customer metrics into dashboards within ConnectWise. The integration will further enhance the reporting efficiency and business intelligence available to DoubleCheck partners who use ConnectWise.

"Our integration with ConnectWise is a great example of two traditional VARs with strong software products partnering to support the channel and grow services. As ConnectWise extends into a managed services delivery platform, the new management reporting tools will deliver even more relevant and efficient business reporting for our customers," said Steve Harper, President of NMGI.

Arnie Bellini, President of ConnectWise stated, "ConnectWise is a complete integrated solution for running your IT Service business. Our integrated approach to CRM, project management, customer service, managed service, help desk, marketing, time tracking and billing gives you one place to manage your business. We are excited about the integration to DoubleCheck because this enables IT Service Providers and Managed Service Providers to build a strong MSP offering. We are committed to the business success of all ConnectWise users. We strongly believe this DoubleCheck integration will complete a comprehensive and profitable MSP strategy for our users."

The announcement will be made at the ConnectWise Partner Summit in Tampa, Florida.
