

SOLUTIONS FOR ACCOUNTING PROFESSIONALS

NETCARE

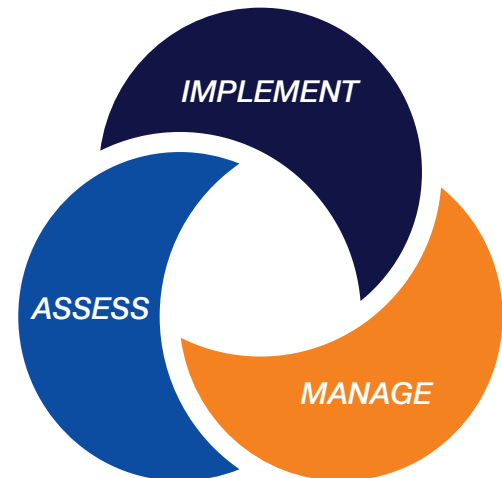

You are an accountant. Your time is your most valuable asset. Why waste it trying to manage and support your own technology? NMGI lets accountants be accountants instead of IT experts. We've spent over 30 years implementing, managing, and supporting accounting technology for CPA firms. NMGI's NetCare service is a pro-active, comprehensive managed IT solution tailored specifically for the accounting industry. We'll keep your staff productive, your office efficient, your applications optimized, and your network safe and secure.

We're not a technology company looking to break into accounting. We are accounting technology experts.

NMGI's comprehensive managed IT services include:

- ▀ Network Monitoring
- ▀ System Maintenance
- ▀ Patch Management
- ▀ Application Updates
- ▀ Managed Security
- ▀ Help Desk Support
- ▀ Managed Back-Up
- ▀ Technology Consulting

OUR APPROACH

Start the cycle today with a **complimentary risk assessment!**

"We could not be happier with our recent move to NMGI. The conversion went very smoothly and was completed well within the estimated timeframe. The assistance so far has been outstanding! The help desk has been extremely responsive. Our team is very excited about the increased performance we are seeing. This was a GREAT move for us!"

Lisa Traina, CPA, CITP, CGMA, Partner
Traina & Associates, a CapinCrouse Company

O ABOUTNMGI

Network Management Group, Inc. provides technology consulting, network implementations, and pro-active managed IT services. We pride ourselves in our technology expertise being in business for over 30 years with a team of professionals possessing over 600 years of combined experience.

NETCARE

NMGI's managed IT service provides your business peace of mind, knowing that all of your technology assets are being managed by a team of experts.

We'll ensure your network is secure, your systems are optimized, and when you need assistance we'll answer your calls live.

NETRESCUE

NMGI's back-up & disaster recovery service delivers an unparalleled, complete data protection and business continuity solution.

A comprehensive back-up & disaster recovery solution is paramount in ensuring your business survives a natural disaster, virus, or ransomware infection.

NETCONSULTING

NMGI provides complimentary technology risk assessments as a way to introduce you to our services. There are absolutely no strings attached.

Use our business and technology consulting services, leveraging over 600 years of combined experience, to ensure your business is running as efficiently as possible.

"We began to work with NMGI in November of 2016. I cannot begin to tell you what a difference it has made in our practice. Having everyone on the same page armed with the tools they need to excel with access to ready support no matter where we are has been a big factor in allowing us to focus on what we do best and grow by over 20% in the last year. No matter who we deal with at the help desk they are always capable in resolving our issues in a friendly manner; something that often requires the patience of Job. I would also like to recommend that everyone treat Ginifer very nicely because she has the most incredible, consistently cheerful and helpful manner in fielding our calls that I have ever encountered in all my years in business. God bless you all and thank you for being our strategic IT partner of choice."

Daniel N. Porter, CPA, CITP, CGMA Managing Director
